

UPDATE (01/10/2025)

Dear Valued Customers,

IMPROVEMENT OF THE CERTIFICATE OF APPROVAL (COA) IMPLEMENTATION MECHANISM FOR IRON AND STEEL PRODUCTS

With regards to the announcement published on 11/09/2025, please be informed that **COA applications without an Environmental Product Declaration (EPD) will be processed by SIRIM only if the bill of lading is dated on or before 01/10/2025.**

Importers are advised to take immediate steps to obtain and prepare the EPD, including communicating with suppliers and relevant parties. Additionally, importers must ensure that for future imports, the EPD requirement is fulfilled before the application of Certificate of Approval (COA) is submitted to SIRIM.

Thank you for your attention and cooperation.
